Artist Statement

Growing up along the Jersey Shore, the ocean has always been my greatest muse. The rhythm of the waves, the colors of the sunrise reflecting on the water, and the ever-changing dance of light and shadow in nature deeply influence my work. My paintings capture not just the physical beauty of coastal landscapes but also the energy, mood, and soul of these environments.

With a BFA from the University of Delaware, I have developed my craft using a variety of mediums, including oil, acrylic, and resin. This diverse foundation allows me to explore new techniques and bring a fresh perspective to my work, blending traditional methods with a contemporary sensibility. My approach to painting is both realistic and modern—a celebration of the timeless character of landscapes with a fresh, vibrant twist.

I gravitate toward bright, dynamic colors, using them to emphasize the fleeting yet profound moments found in light and shadow. Whether it's the glow of the sun breaking through clouds or the soft illumination of a hidden cove, I aim to highlight the experiences that often go unnoticed in our busy lives. Each piece strives to bring the landscapes to life, infusing them with a personality that invites viewers to connect with the energy and emotion of the scene.

My work is currently exhibited in galleries and boutiques along the Jersey Shore, and I am eager to expand my viewership to other coastal communities and beyond. I look forward to the opportunity to share my art with a wider audience, connecting people to the beauty and vitality of the natural world.

The ocean, its movement, the vibrant palette of sunrise, and the interplay of light and shadow continue to shape my artistic vision. With every brushstroke, I aim to capture not just a scene but the emotions and experiences it evokes. As I plan for future shows, my goal is to continue sharing this vision and inviting others to experience the energy and beauty of the landscapes I paint.

Education

BFA – University of Delaware, 2002
